

Fleet Mechanic

Landworx Landscape Contractors has consistently delivered the highest quality landscape design, maintenance, and commercial snow removal services at competitive prices since its inception. Our company is situated in Morgantown, PA, and has the necessary resources to cater to a diverse and expanding clientele base by providing professional design, build, and maintenance services that address a wide range of landscape design and site management needs. We are committed to delivering unparalleled services while ensuring that our clients operate within their budget constraints.

Our team of experts is equipped with the latest tools and techniques to deliver exceptional landscape design, installation, and maintenance services that meet and exceed industry standards. We pride ourselves on providing cost-effective solutions that address our clients' unique needs without compromising quality, safety, or aesthetic appeal.

At Landworx Landscape Contractors, we are dedicated to building long-term relationships with our clients by providing exceptional services that guarantee customer satisfaction. Our commitment to excellence and our unwavering focus on meeting our clients' needs make us the preferred choice for all your landscape design, installation, and maintenance needs.

Role Description

This is a full-time or part time for the right candidate on-site role for a Fleet Mechanic - 2nd shift located in Greater Philadelphia. The Fleet Mechanic - 2nd Shift involves maintaining and repairing all company-owned equipment including heavy duty trucks, medium duty trucks, pickup trucks, cars, trailers, chippers, skid steers, loaders, stump grinders, mowers and small 2-cycle engine equipment.

Qualifications

- Experience with diesel engines, electronic engines, and hydraulic systems
- Knowledge of DOT regulations for commercial vehicles
- Weekly preventative maintenance/repair of trucks and equipment
- Managing/maintaining vehicle fleet (diesel/gasoline engines)
- Servicing/repair of field equipment as needed
- Repairing 2-cycle engine equipment
- Servicing and repair of snow removal equipment
- Servicing and repair of chippers, stump grinders, spider lifts, bucket trucks, cranes
- Ability to prioritize and juggle multiple projects at one time.
- Knowledge of hydraulic systems and maintenance
- Welding/mechanical skills
- Punctual and dependable
- Ability to pass a criminal background check
- Resilience and resourcefulness
- Interest in working outdoors year-round in all weather conditions
- Valid driver's license and clean motor vehicle record
- Ability to work on multiple vehicle/engine types
- Motivated to learn and grow, always looking for opportunities for self-development
- Must be able to get DOT Medical Certification
- Highly motivated, self-driven, and detailed oriented
- Perform PM services and DOT inspections
- Provide accurate repair order documentation
- On the Road Technician (including after hours, as needed)
- Must be available to work during all-weather events
- Technical training or certification in diesel mechanics or automotive technology is a plus
